Teacher Directions:

This is a foldable graphic organizer that is designed to be used in an interactive notebook. It is a way to take notes as a reference for students during practice activities. It will require cutting and gluing into the notebook. It could also be used as a formative assessment.

About this Resource:

Tips and Variations :

This foldable notes graphic organizer is designed to help students read, annotate, set-up and solve tax, tip, and discount problems.

This resource includes:

-3 versions of the graphic organizer
(filled-in, blank, and fill-in the blanks)

-You could have partners work together instead of against each other.

-These cards could also be used like task cards.

FIND TAX, TIPS, AND DISCOUNTS

The situation:

You buy some clothes at the store for a subtotal of \$25. You have to pay 8% sales tax. What is the total price for the clothes?

Change the percent to a decimal:

$$8\% \text{ is } \frac{8}{100} = .08$$

Multiply the subtotal times the decimal:

$$\begin{array}{r} \$25 \times .08 \\ \$2 \end{array}$$

- If it is an increase add.
- If it is a decrease subtract.

$$\begin{array}{r} \text{Subtotal} + \text{tax} = \text{Total} \\ \$25 + \$2 = \$27 \end{array}$$
